

Flow Control
One Hayward Industrial Drive
Clemmons, NC 27012
1.888.429.4635
haywardflowcontrol.com

Date: April 11, 2025
To: Our Valued Customers
Subject: Price Change Announcement

As we celebrate our 100th year, Hayward Flow Control remains dedicated to delivering the highest quality thermoplastic piping solutions—along with the service and reliability you expect. This adjustment reflects rising material, shipping and manufacturing costs for an **average 5% increase** on all orders received on or after **June 2, 2025**.

Launching this year, our 2025 Price List (HPL25) will be available exclusively in a digital format—designed for quicker access and a more user-friendly experience. The Excel version will be available on or before April 30th, 2025, with the PDF to follow shortly on our website.

Key Features:

- Full part numbers for quick reference
- Hyperlinks to detailed product specs
- Streamlined navigation for a better user experience

BABA - Build America, Buy America

We're not just compliant, we're leading the way. With 100 years of American manufacturing, Hayward Flow Control is your premier source for BABA-compliant thermoplastic valves and accessories. Visit haywardflowcontrol.com to learn more about all we can do to assist with your BABA-compliant needs. For a comprehensive list of US-manufactured industrial thermoplastic valves and accessories, [click here](#).

We're excited to share the latest additions to our valve portfolio:

- TWH and LAH Series 3-Way Ball Valves
Offering enhanced flow control and flexible installation options.
- LCH Series Ball Valve
Engineered for lab applications requiring precise control, monitoring, and sampling—plus on/off operation.
- Expanded Discount Multipliers
Now available for PVDF and selected GFPP products.

Reaching our 100-year milestone is a testament to the loyalty and trust of partners like you. We are sincerely grateful for your continued support and partnership—and we look forward to building the next century of success together.

If you have any questions about the upcoming changes or need assistance, please contact your local Hayward Flow Control Sales Representative or reach out to our Customer Care Team at 888-429-4635.

Best Regards,

Joseph G. Romano, General Manager
